

a must attend event

Why Canada? *A leader in the world mineral industry*

- Explosive growth in oil sands open pit mining with a 36 billion dollar expansion program in progress
- World's largest oil resource outside Saudi Arabia
- Newly developed, high-quality diamond mines (BHP-Billiton and Rio Tinto/Aber Resources)
- A restructured and re-energized coal industry with zero emission and clean burning technology
- World's largest and safest producers of uranium (Cameco)
 - World-class potash mining operations (Potash Corporation of Saskatchewan)

Why Edmonton? *A gateway to mining in the North*

- Centrally located to world-class mining operations
 - Easy access to oil sands, diamond, potash, and coal mine tours

Why attend? *Hear about global best practices*

- Do's and Don'ts of corporate governance on aboriginal, environmental, human resources issues
- Building and operating logistics in the North
 - Designing and costing mining projects from opening to reclamation
- Workshops on: Mineral Property Valuation, Mining Geostatics, Web-based Process Control, Community and Sustainable Development
